

Cross-section™

XS Cross-section™

Highly customizable technology achieved through yarn modification. The performance of the fabric is directly impacted by the specialty yarn construction.

Highly customizable technology

Cross-section™

POTENTIAL BENEFITS:

- Tunable fabric weight
- Moisture management
- Increased coverage of surface area
- Abrasion performance
- Resiliency
- Control of permeability
- Synergy with additives, topical technologies
- Aesthetic heather and tone-on-tone effects
- Combines well with other performance technologies
- Technology is in the yarn structure

Performance benefits and claims are based on fabric construction.

AVAILABLE:

- In select variants to optimize performance and properties
- Limited range of **REPREVE®** variants available
- Available globally

MODIFIED CROSS-SECTIONS

Added bulk and surface area

STANDARD FILAMENTS

END USES:

Apparel

Automotive

Bedding

Flooring

Furnishings

Socks/Hosiery
