

TruCover™

TruCover™

Fibers with an increased surface area deliver flexible, lightweight stretch and coverage without show through.

TruCover™

Coverage even when stretched

POTENTIAL BENEFITS:

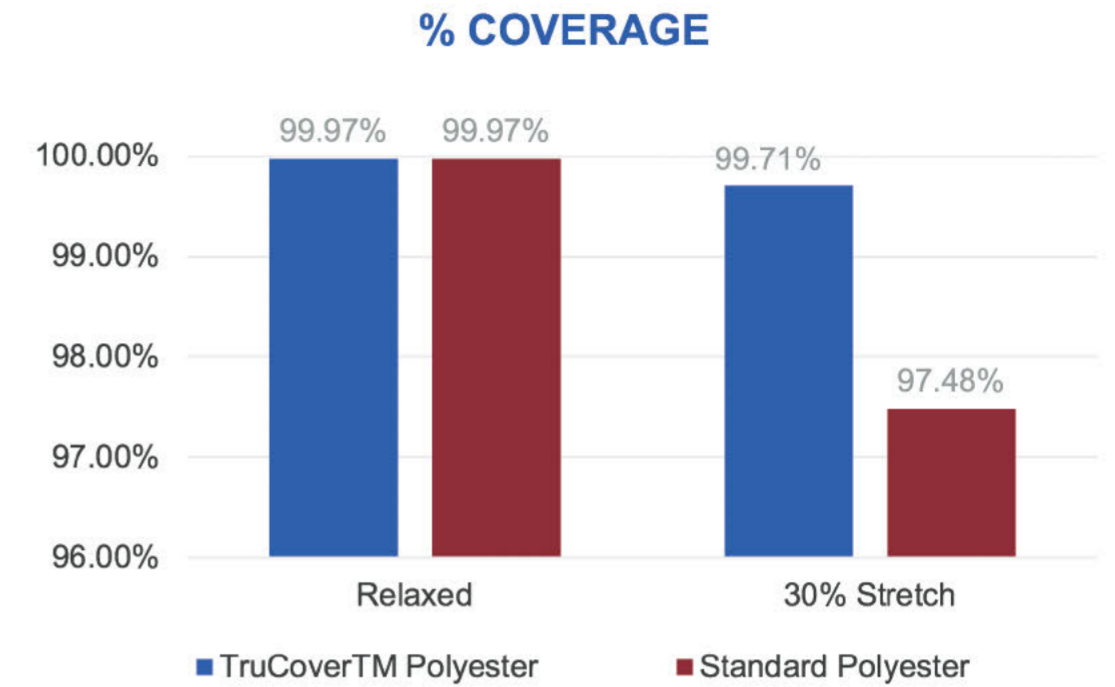

- Coverage without show-through
- Combines well with other proprietary additives or finishes for additional benefits

AVAILABLE:

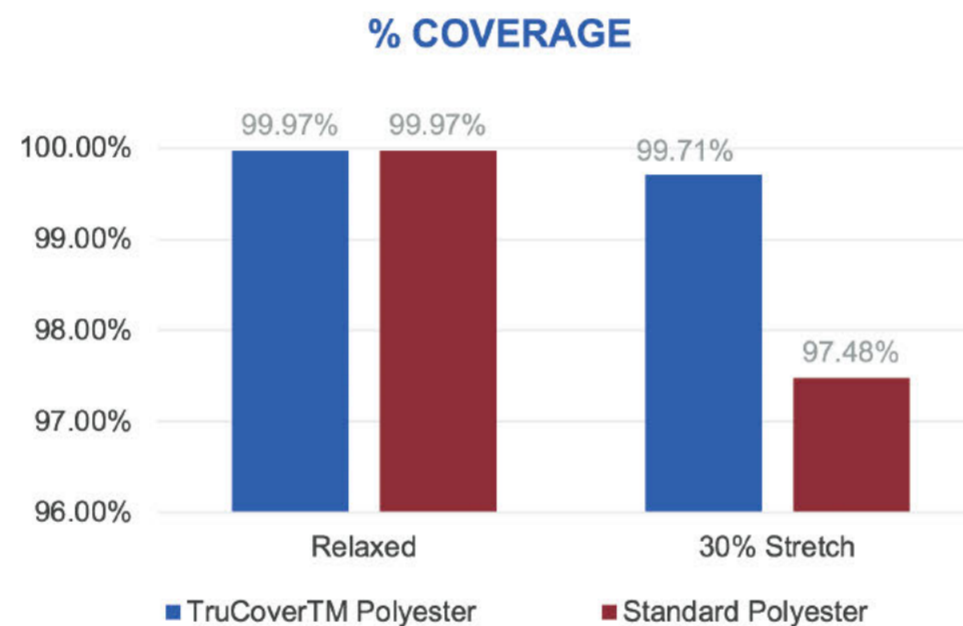

- Full range of **REPREVE®** yarns in polyester filament and staple and spun fiber types
- Full range of **PROFIBER™** yarns
- Available globally

Performance benefits and claims are based on fabric construction.

Improved coverage

Fabric Construction: (86% Polyester, 14% Elastane)
8.0 oz/sq yd Interlock Knit

Fabric Construction: (86% Polyester, 14% Elastane)
8.0 oz/sq yd Interlock Knit

% Coverage Test Method

Lightbox: GretagMacbeth (model Judge II) , Daylight setting

Lightmeter: PCE-170A

Dupont Lycra ruler used to determine % stretch in 10" embroidery hoop

% Coverage determined by subtracting the percentage ratio of the lux reading taken under the fabric being tested to the lux reading taken on the fabric surface fabric, at a standard 15" distance from the light source.

END USES:

Apparel

Bottoms
